

Great Quality & Great Aesthetics Win

The Box Edge Plus® Line Shows Off its Durability and Clean Look

What do you do when you have heavy goods and parts that need to be stored? You call in the most versatile and heavy-duty steel shelving in the industry.... Box Edge. That's exactly what Stiles Machinery, Inc did.

For over 45 years, Stiles has been one of the largest suppliers of quality machinery. They offer production solutions to manufacturing, from equipment integration and financial services to education, service and parts.

Recently Stiles wanted to upgrade their storage area. The challenge for Stiles was to find a heavy-duty shelving manufacturer that provided enough capacity per shelf to carry the wide range of compressors, motors, condensers and more that would be stored. In addition Stiles was looking for an aesthetically pleasing product that they could feel comfortable enough for clients to see.

To put it all together Stiles contacted John Beauregard with Remco Storage Systems, Inc. in Troy, Michigan. Remco listened to the needs and wants of Stiles which among other things included buying from a US manufacturer, and they preferred one that was local. Remco suggested Borroughs Corporation and the Box Edge product. Although Stiles had another manufacturer that they were interested in pursuing - Remco insisted that the Borroughs shelving would outshine the competitor with greater performance and a higher level of quality.

STILES MACHINERY, INC. GRAND RAPIDS, MI

Manufacturer: **Borroughs Corporation**
www.borroughs.com

Owner: **Stiles Machinery, Inc.**
www.stilesmachinery.com **stiles**

Location: **Grand Rapids, Michigan**

Dealer: **Remco Storage Systems, Inc. – Troy, MI**
www.remcoequipment.com **REMCO**
Storage Systems, Inc.

Working alongside Stiles' staff, Remco built the shelving as Stiles took product off of the old shelving. Seamless integration of the new shelves only took 6 days with careful attention paid to numerous pipes and overhead obstacles. When all was said and done Stiles was pleased with the new shelving, and loved the improved aesthetic quality that the Borroughs Box Edge product has provided.
